

June 18 – July 6, 2012

Held at the Turnbull Laboratory for Ecological Studies (TLES), Turnbull National Wildlife Refuge (TNWR) & Eastern Washington University (EWU)
 Participants: Richard Koji Gaines, Annabele Jones, Amanda Kolassa, Claire Mattes, Keya Moses, Jolene Perry, Katie Prior, Sarah Smith & Brianna Swilling
 Instructors: Cody Schoonover, Jessica Wieker & Dr. Joanna Joyner-Matos

Lab Activities

Look at those clams climb!

Counting algae

Hard at work measuring clams

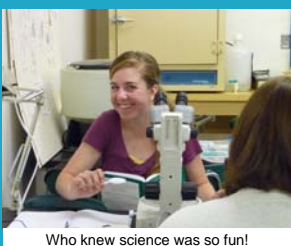

Identifying watersheds

Learning to identify invertebrates

Accuracy versus precision lab

Who knew science was so fun!

pH lab activity

Field Trips

Bunker Hill Superfund Site

Learning about Bunker Hill

Terra Graphics Lab

Disposal of contaminated sediments

Bird banding at TNWR

Catching birds with mist nets

Learning about resource management

Contemplating the aquifer exhibit

TNWR Wetland Sampling

Sampling at TLES

Get those bugs!

Do I really need to wear this?

Where's Annabel?

BRRRR its cold!

Pose for the camera

Sampling at TLES

Yeah, clams!

ACKNOWLEDGMENTS

We gratefully acknowledge the following external funding sources: The Charlotte Martin Foundation, CH2M Hill, Costco Wholesale Corporation, North Idaho Dermatology, and Turnbull National Wildlife Refuge. We also thank the following providers of gifts and/or matching funds from Eastern Washington University: the University Foundation, the College of Science, Health, and Engineering, the Office of Grants and Research Development, the Department of Biology, the Motor Pool, and the University Bookstore – EWU.
